Mr. Lynch is the President and a Principal of OLA Consulting Engineers. In his current role, Mr. Lynch provides the leadership in determining and guiding the course undertaken by the firm in its professional and business activities, seeing to it that the firm's business is conducted in a professional manner, in a comfortable environment, conducive to creative, efficient productivity and individual growth.

Pat joined the firm in 1989 as a project manager and lead electrical engineer on a wide variety of project types including educational, corporate, critical environment, institutional, retail, and multi-family residential. His engineering roles evolved and expanded throughout his 25 years at OLA. Pat was promoted to Principal and manager of the electrical department in 1993 and Principal in Charge of Engineering Operations for the entire firm in 1999. In each of these roles, Mr. Lynch was active in project management, electrical design, business development, and engineering operations. In 2001, at the age of 35, Pat became President of OLA.

As a Certified Energy Manager and a LEED™ Accredited Professional, Mr. Lynch has a vast knowledge of building systems. He has guided the firm to be a leader in the areas of sustainable design and high performance building design.
